STEWARDSHIP DAY

9.15.2018

Brought to you by Project Discovery Utah

Bring yourself, bring your family, bring your dog, and cruise down to one of the best public archaeology events in Utah! Designed as a driving tour, you can cruise through the canyon at your own pace stopping at designated archaeological sites. Each site will have a professional archaeological site host paired with our student stewards. These students have been through the Project Discovery education program and this is their opportunity to share their knowledge with you. By pulling back the veil of secrecy and not only showing, but educating you about these precious and irreplaceable archaeological sites - we hope you'll walk away more enlightened, with a better understanding of why these sites are important, and why they should be protected and preserved for future generations.
